Other Facts Concerning the Late Elections

The election news to-day is not without interest. The bulletins yesterday were crowded from the hour our first dispatch was posted until darkness prevented the reading of the telegrams. The Republicans have in vain tried to keep this a secret. From the returns which we publish it will be seen that the Tilden electors are chosen by at least 7,000 majority. The Returning Board met yesterday and commenced operations. They agreed to sit from 10 A. M. to 4 P. [Special telegram to the Dispatch.] COLUMBIA, S. C., November 20.-Upon the meeting of the Supreme Court this morning counsel for the Democratic candidates t with article 94 of the Constitution of asked for an order requiring the Board of Canvassers, in reporting their action under the order of the 17th, to include at the same time all errors, irregularities, and discrepancies in the statements of County Canvassers which exist between the returns of the managers of precinct elections and those of the County Canvassers, as tabulated and discovered by the State Board. This order was asked for on the ground that sing said Board are members of the Dem- a comparison of the returns of the managers and the County Canvassers made for the counties of Aiken, Abbeville, Auderson, Barnwell, and Charleston by the State Board of Canvassers had made manifest great irregularities and discrepancies; that votes given to one candidate, and so appearing on the managers' returns, were tend that the word "electors" is not used by the County Canvassers transferred to in the act simply because electors are inanother candidate; that the County Canunissioner, and ineligible according to vassers included in their statement returns purporting to come from precincts not designated in any statute; and that the Board of State Canvassers received returns not forwarded according to law, signed by the managers of the one party only, and never submitted to the Board of County Canvassers, but forwarded by one party after the County Canvassers had made and closed their official statement.

The Court declined granting this order on the grounds that the Board had not as yet refused to produce the papers asked for, and that it would therefore be irregular to do so. The Court, however, intimated that it would require the production of the returns by the Board to-morrow, and threatened to issue a peremptory mandamus to compel them to do so.

The Court commented quite severely upon merely clerical work required of them, and their action and temper to-day is regarded as another significant hint to the Board that gold chain stolen by one of his clients merely clerical work required of them, and line prisoners of the county jail at Colum- as another significant hint to the Board that meet the case of H. can organizations from States other than Louisiana, have determined, they say, to secure a full stenographic report of all the proceedings and evidence before the Returning Board, so that an important statement may be given to the public and sent to the President. They have also determined to change their committee from time to time, so that all members may observe the mode of proceedings and the appearance

and character of the witnesses examined. The total vote of Louisiana, as made up from duplicate poll-lists received from 47 parishes, and 10 parishes estimated by registration this year and the vote of 1874, is is follows: For Governor-Nichols, 84,202; Packard, 76,112. The increase of the vote this year over that of 1874 is 12,519. Nichols's majority of the votes polled over Packard is 8,090. Of the Tilden electors, five have a majority of 9,249 over the highest vote for the Republicans. The other two Tilden electors have a majority of 7,036. The discrepancy in the majorities is caused by the omissions of the names of five of the Hayes electors from the Republican tickets in several parishes.

The Returning Board have received reurns from thirty-five of the seventy-one parishes, and will commence the canvass Monday (to-day). Counsel will be permitted to inspect the returns when received, to see that they had not been tampered with. Visiting Democrats have appointed the following to remain here and be present to witness the count: John M. not been designated. NEW YORK, November 20 .- The Times's New Orleans dispatch says: "It will be remembered that the Returning Board was created by the same Legislature that elected Pinchback to the United States Senate. He was refused his seat on the ground that the Legislature was not properly and legally organized. Now he claims that if the Returning Board is recognized as a legal body he should be seated. NEW ORLEANS, November 20 .- The ar-

Soon after the meeting of the Returning Board the following rules were adopted: The Board will first take up the parishes in which there are no contests. After disposing of these parishes those will be taken up in which there are no objections. All motions made by attorneys must be in writing. No oral arguments will be al-Any candidate or his representative who presents a witness must also present interrogatories. No ex-parte affidavits to be received. Judge Spafford offered a rule as a substi-

tute for the rule for executive sessions to the effect that the sessions of the Board should be public, and that representatives of each party and press reporters be allowed half of his motion.

Governor Wells stated that the Board could not accept the amendment. It had been decided to admit the national committees and their reporters.

ANOTHER REPUBLICAN TO BE PLACED ON THE RETURNING BOARD-FIGURES ON THE VOTE OF THE STATE.

NEW ORLEANS, November 20 .- The day has been very quiet. In an interview between State Senator Brewster (Republican), who is also a candidate as a Hayes elector, he stated that it was more than probable the Returning Board would to-day reject the name of Dr. Kennedy (Democrat), and proceed to elect some Republican lawyer to fill the vacant place.

He further stated that the law requiring the Senate to select representatives of both political parties in its composition of the Board applied only to its first formation, but when any vacancy occurs subsequently the power to fill it is vested entirely in the Board itself.

The Republicans desire to have some good constitutional lawyer on the Board of their own political persuasion.

FLORIDA.

TALLAHASSEE, November 19 .- There is reasonable ground for believing that Governor Sterns, of this State, will assume that Governor to decide all issues pertaining to the canvass, and give his certificate to whichever set of electors he decides are elected. This assumption is based upon the fact that the act creating the Returning Board does not use the word "electors" in giving the list of officers whose vote the Board shall canvass. The power to canvass votes not being especially conferred upon the Board, he contends it resides in him, as required by the United States law, to issue the electors certificates, and he must canvass in order to

decide who are entitled to certificates. The Democrats are very much astonished that this claim should be set up, and concluded under the head of State officers, which expression is used in the act. The Democratic committee waited on the Governor and notified him that if he contemplated such a step they would ask permission to file a protest. He stated that they should have an opportunity to do this, and this (Sunday) morning notified them by a letter that he should be pleased if they would forward in writing whatever they had to say upon the subject. This is considered an intimation that he intends to move in the matter without delay. Elaborate opinions are being prepared on both sides of

this question. There is some movement in military circles to-night. Precisely what it is cannot be ascertained. It is supposed that troops are going to some of the contested counties.

[Associated Press telegrams.] EXCITEMENT IN WASHINGTON—CONCENTRATION OF TROOPS AT THE NATIONAL CAPITAL CAB-INET OFFICERS RETICENT.

WASHINGTON, November 20:- The War and Navy Departments are to-day special objects of attraction to many persons seek ng information about various rumors which have been in circulation here and elsewhere. all of which tend to occasion excitement. They referred principally to the movements of troops in this direction, and naval manœuvres and other acts of similar import. To direct questions as to the meaning of the congregation of troops in this city Secretary Cameron unhesitatingly responded that there was no significance whatever in the presence of troops here. He said they beong to this military department, and this is convenient and economical point for stationing them. The Secretary of War further remarked that no additional troops would be ordered to this point.

The Secretary of the Navy, responding to nquiries as to the concentration of a naval force hereabout, denies emphatically every rumor to that effect. The vessels of the navy are, he said, pursuing their usual routine avocations without extraordinary orders or movements whatever, and there is nothing in any recent suggestion or direction from the Navy Department to the commanders of naval vessels which can be construed into an act which ought to occasion he slightest sensation or excitement.

Cabinet officers freely talk of the significance attending the movements of troops hitherward, denying, as is above mentioned, that it has extraordinary meaning. But upon the subject of the several extra Cabinet sessions during Friday and Saturday of last week, which are reported to have been held not only at the Executive mansion but at the Department of Justice, and assertions also made at the private residence of a prominent member of the Cabinet, there is absolute reticence and no information can be obtained. There are indications that the

usual Cabinet session of last Friday, at the close of which the members repaired to the office of the Attorney-General and were engaged for some time in consulting statutes, was a session of very deep interest, and was followed by several other consultations; in addition to which it was | See. noticeable that one or two very prominent members were actively visiting other departments; and while there is no positive knowledge it is generally believed that impressions have met prominent Government officials that it is well to be prepared for any contingency, however remote it may be, that can arise in the future and out of the present complications. Even this statement is not made by Cabinet officers, but other officials and persons who hold intimate political relations with the members readily so express themselves.

Among the reports which have had currency is one to the effect that at a meeting Ohio, now one of the commissioners of this rent of a plano. District, was present, and that on Saturday Chief-Supervisor Davenport, of New York, and Governor Dennison were together in consultation with the Attorney-General.

In addition to what has been said by the General of the Army, Secretary Cameron, and Secretary Robeson, Secretary Chandler said to-day that this military movement was not a formal act of the Administration, but an ordinary army movement. He himself did not know that any companies had been ordered here, and he is not aware that any more are coming. He thinks it just as well to have them stationed here as elsewhere and, in fact, better, because it is a cheaper place to feed them than most other places. General Barry, commanding at Fort Mon-

BALTIMORE, November 20 .- The regular annual meeting of the stockholders of the Baitimore and Ohio Railroad Company was held to-day. John W. The total revenues of the road, branches, and connections, for the fiscal year ending September 30, 1876, are given at \$15,031, 235. The expenses of working and keep ing the roads and machinery in repair amounted to \$9,609,856; being 56.18 per cent, upon the earnings; showing a de crease of 2.56 per cent. compared with the previous year. The earnings of the main item and branches, in comparison with 1875, have decreased \$881,817, and the working expenses have decreased \$765,165, making a comparative decrease in net profits of \$116,652. The surplus fund, representing capital derived from net earnings invested in branch and connecting roads and other improvements, is \$36,022,365. The entire mortgage indebtedness in currency and sterling is \$28,163,929, showing an excess of surplus fund above the entire mortgage indebtedness of \$7,853,435.
